## ***Managing Your Intimate Relationship Through Medical School***

Jordyn Paradis Hagar

---

Pulling from her spouse’s experiences with the medical training process as well as from her professional mental health background, Jordyn Paradis Hagar takes you on a step by step journey through the realities of managing an intimate relationship during medical school. She addresses both the med student’s overwhelming reality as well as the unique and often overlooked experience of a med student’s significant other. From adapting to the initial difficulties that medical school can produce in a relationship, through to the ultimate realization of a healthy and balanced relationship, “*At Least*

*You’ll Be Married To A Doctor*” describes in detail the process of creating and maintaining a healthy relationship during medical school. The reader will leave this book with a strong understanding of the experiences that many med school relationships encounter and the tools needed to manage them along the way.
